We all know that Red Door is among the best we can get for our money - but for those of us who may be a little bit more recession-minded, there's a new kid in town...

Actually, [Simply Face & Body](#) is a new brand division of Red Door [Spa](#), and they have taken the (very timely) mission of offering quality spa products and services at way more affordable prices than you may imagine.

Right now, they mainly offer facials and massages, as well as various types of [waxing](#) (e.g., eyebrows, lip, bikini) - hence the name "simply face and body" - and the concept is almost gym-like, you enroll in a monthly membership, where you receive one facial or massage per month included. This monthly rate of is \$59!

As a member, you can also buy additional services and products at a discounted rate.

A few weeks ago, I visited their flagship location in northern New [Jersey](#) to try out one of these facials - and I have to say, it was one of the best I ever had! I can honestly say the results were more instant and impressive than places where facials go for \$200+, and my aestician was friendly and super-knowledgeable. (Actually, so friendly that my gal pal that I was visiting with later teased me that she heard me giggling from the next room during her whole service!)

Why I loved it: Everything there is organic, and they will explain each part of the treatment to you as they do it! This is great - too many women have no idea what is going on with their skin, or what is needed to correct it. I was told I actually have fabulous skin (which I sort of knew!), but given advice on how to make it even better. And they used high-frequency treatment on me, a cutting-edge light technology that kills bacteria beneath the surface so that it's gone before blemishes can even be born! How cool is that?

Currently, the only location is in Ramsey, NJ - but many more are coming soon. I shall report when I hear more! (Especially if they invite me to try out the others!)
